

**CAUTION** - To reduce the risk of fire, electric shock, or injury to persons:

- a) Use only insulated staples or plastic ties to secure cords.
- b) Route and secure cords so that they will not be pinched or damaged when the cabinet is pushed to the wall.
- c) Not intended for recessed installation in ceilings, or soffits.

## INSTALLATION

### USING BUILT-IN MOUNTING BRACKETS

*Step 1* Open the mounting brackets on the back of both end caps by pulling them outward

*Step 2* Secure the brackets to the mounting surface by using two tapping screws

*Step 3* Connect the power input cord from the power supply to the light fixture and push the fixture back to its original position

*Step 4* Plug the power supply into an AC 120 volt, 60HZ outlet

### USING OPTIONAL MAGNETIC MOUNTING OPTION

*Step 1* Connect the power input cord from the power supply to the light

*Step 2* Attach the light fixture onto a metal mounting surface

*Step 3* Plug the power supply into an AC 120 volt, 60HZ outlet
