

DOCK-100-HUB

Power Hub for DOCK-100 Series (DOCK-110, DOCK-120, DOCK-130 and DOCK-140 Series)

INSTALLATION INSTRUCTIONS

CAUTION: To prevent the risk of fire and electric shock, please be sure to read all instructions before installing or using this unit.

IMPORTANT SAFETY INSTRUCTIONS

WARNING – To reduce the risk of fire, electric shock, or injury to persons:

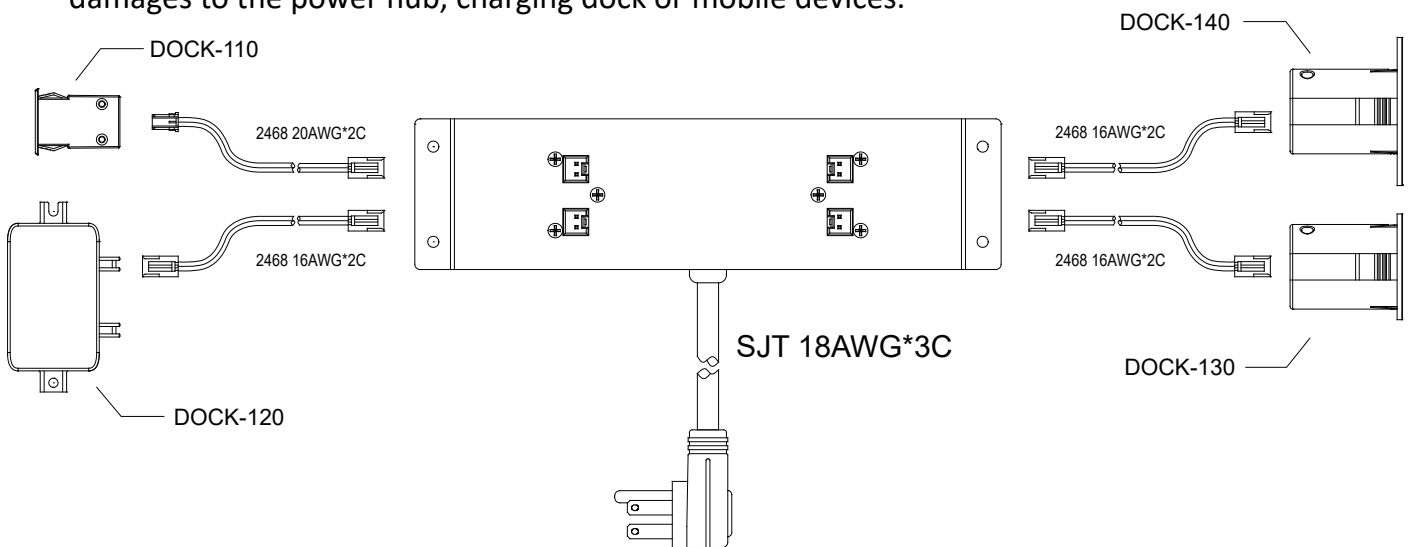

1. Indoor use only.
2. Do not use extension cord(s) that is not supplied by National Lighting to connect the unit(s).
3. Do not try to open the unit for any reason.

MOUNTING

1. Place the charger on the desired surface and use four tapping screws to fasten it onto the wood surface.
2. Connect optional DOCK-100 Series charging docks to the power hub with included cords.

USING THIS POWER HUB

1. Plug the power cord to nearest AC outlet.
2. Plug mobile devices to the DOCK-100 Series charging docks to initiate charging. Please be sure that the total current draw on each power hub output port does not exceed 4.2A or it may cause damages to the power hub, charging dock or mobile devices.

- The unit with Class I construction shall be connected to a mains socket-outlet with a protective earthing connection
- L'unité de construction de classe I doit être branchée sur une prise secteur avec une connexion de protection à la terre.
- The socket-outlet shall be installed near the equipment and shall be easily accessible.
- le socle de prise de courant doit être installé à proximité du matériel et doit être aisément accessible.

Please contact with National Lighting Corp. at (888)428-6886 for assistance if any question occurs during installation.
